

EduGenie: Google Gemini Powered Learning Assistant

Phase 6

5. Learning Path Module

The `get_learning_recommendations` function uses Google Gemini to generate a personalized, structured learning path for any given topic. By crafting a detailed prompt, it instructs the AI to suggest beginner to advanced concepts, organized by difficulty, and supported with useful resources such as videos, articles, or books. It ensures adaptability to the learner's level. The function safely handles API responses and errors, providing either the generated text or a helpful error message if the response is invalid or incomplete.

Activity 2.2 : Backend API with FastAPI

- Defined RESTful endpoints for each module:
- `/qa`
- `/explain`
- `/quiz`
- `/summarize`
- `/learn/recommendations`
- Connected each endpoint to a respective module logic
